

- We need your help!
  - If you are a researcher or developer, please consider filling out either a **Research Studies** metadata form (for research projects on potential environmental effects of MHK development) or a **Project Sites** metadata form (for baseline and monitoring data collection and plans around MHK deployment sites): [http://mhk.pnnl.gov/wiki/index.php/Tethys\\_Home](http://mhk.pnnl.gov/wiki/index.php/Tethys_Home) (under “Featured Links”)
  - Annex IV final report – potential case studies:
    - Animal Interactions with MHK Devices
    - Potential Acoustic Impacts
    - Effects to the Physical System (Changes to Hydrodynamics, Sediment Transport, Etc.)

Please contact Anna Coffey ([anna.coffey@ee.doe.gov](mailto:anna.coffey@ee.doe.gov)) or  
Andrea Copping ([andrea.copping@pnnl.gov](mailto:andrea.copping@pnnl.gov))  
with any questions or project suggestions

- The presentations and recording from this webinar can be accessed on PNNL's Tethys site:
